

Issue:

When connected with any server in IBM planning anaylitics tab to use PAX, on the right hand side there is no TM1 Objects visible (under IBM Table) to view all the Server objects and workbooks, to resolve this issue follow the simple steps mentioned below.

Try using this Office compatibility mode in General settings of Excel:

You can also improve display problems with add-ins by changing the display settings to compatibility mode. To change the display settings for Office go to **File > Options > General**

Under General setting option you will find two options mentioned below:

- 1. Optimize for best appearance
- 2. Optimize for compatibility

Select 2nd option "<u>Optimize for compatibility</u>" (This will require application to restart for one time)

Refer below screen shot to apply settings

Excel Options	? X
General	General options for working with Excel. Select "Optimize for
Formulas	(compatibility" and
Data	User Interface options Click "Ok"
Proofing	When using multiple displays:
Save	Optimize for best appearance
Language	Optimize for <u>compatibility</u> (application restart required)
Ease of Access	Show Quick Analysis options on selection
Advanced	✓ Enable Live Preview ^①
Customize Ribbon	Collapse the ribbo <u>n</u> automatically ()
Quick Access Toolbar	ScreenTip style: Show feature descriptions in ScreenTips 💌
Add-ins	When creating new workbooks
Trust Center	Use this as the default font: Body Font
	Font size: 11 🔻

End Result:

All the Objects & workbooks now are visible in the Task pane area on the Right hand side (Under IBM - Table)

Recommendation: This solution is tried and tested for the issue faced on PAX on Cloud server.

Thank You
